

Letter indicating Intentions of Research

For applying to PhD program stage A

The document must be answered according to the chapter headings listed below. This document is only preliminary and subject to changes during the formulation of the research proposal. The document requires the signature of the candidate and the supervisor/s.

The document should be written in consultation with the supervisor/s.

The scope of the document will be 2 pages (in the Department of Statistics up to 1 page and in the Department of Law up to 3 pages), with a font size of 12 and a space of one and a half lines. The templates can be expanded as needed. It is important, however, not to exceed the required number of pages for the entire document.

In special cases where it is not possible to refer to a section of the document, please explain why and attach the supervisor's approval.

Candidates who are applying to the Institute of Judaism, Archeology, Cognitive Sciences, Geography, Business Administration and Criminology will fill out the form at the **following link**

Name of the candidate

Click here to enter text.

Letter indicating Intentions of Research - previous version

Candidates who are applying to the Institute of Judaism, Archeology, Cognitive Sciences, Geography, Business Administration and Criminology will prepare a Letter of intentions of research according to the following guidelines:

The candidate will specify the motives for choosing the field of research and indicate the topics of research, expectations for achievements and the estimated contribution of the work to the field of research. The letter will prove that the candidate can start the research work, in light of a proper definition of the research topic and research method, as well as a basic acquaintance with existing literature and research. The length of the document will be 1500 words.
